# 622 Program

---

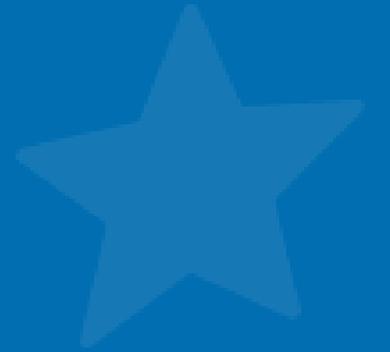

Voluntary program offering on-going mental health services and support to children and families in the community for up to 90 days.

<input type="checkbox"/>	MCOT Response/Assessment	MCOT team responds to a mental health emergency in the community involving youth. After assessment, they determine whether 622 is an appropriate resource for the family.
<input type="checkbox"/>	622 Referral	Referral submitted via internal process. Parent partner or clinician contact parent directly to discuss program and gauge interest.
<input type="checkbox"/>	Treatment Plan Meeting	If family agrees to services, treatment plan meeting scheduled with family, clinician and parent partner to identify goals, complete intake, and schedule upcoming appointments.
<input type="checkbox"/>	Living Skills w/ Clinician	Clinician available to meet with child to work towards goals and assess progress.
<input type="checkbox"/>	APRN available as needed	If a family expresses interest in medication, APRN will be notified and follow up directly. This can be re-evaluated at any point during the program.
<input type="checkbox"/>	Connection to Community Resources	Parent partner and/or clinician will work with the family to help connect to community resources to support client's success.
<input type="checkbox"/>	Discharge	Client will discharge from program at 90 days and/or after successful completion of treatment goals, whichever occurs first.
